

**SIMPLIFIED ACQUISITION PROCEDURES (SAP)
JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION**

SOLICITATIONS MAY BE LIMITED TO ONE SOURCE ONLY IF THE CONTRACTING OFFICER (*within its warrant authority*) DETERMINES THAT ONLY ONE SOURCE IS AVAILABLE IAW FAR 13.106-1(b). THIS DETERMINATION MUST BE SUPPORTED WITH FULL JUSTIFICATION FOR SOLE SOURCE FROM THE CUSTOMER. THE CUSTOMER SHALL PROVIDE THE FOLLOWING INFORMATION:

ESTIMATED AMOUNT (OVER \$2,500 BUT NOT EXCEEDING \$100,000)
\$99,170

DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE

Modify Task Order 0008 with Bonneville Power Administration (BPA) under the NAVFAC Northwest's Utility Energy Services Contract (UESC) Basic Ordering Agreement (BOA), N44255-08-G-3004, without providing full and open competition in order to extend the Period of Performance (POP) for Energy Technical Support (ETS) services at NBK Bangor. The locations contained in this Task Order are as follows: NAVSTA Bremerton, NBK Keyport, Puget Sound Naval Shipyard (PSNS), Naval Hospital Bremerton, and Naval Magazine (NAVMAG) Indian Island. The POP for this extension is May 1, 2010 to June 21, 2010.

UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED.

BPA provides ETS services via a subcontract to RJD Technologies, Incorporated (RJD). RJD was competitively awarded a contract via BPA to provide energy technical support services to NAVFAC Northwest.

An essential aspect of the services that NAVFAC Northwest receives via contracting through BPA is the use of SABER software to assist in managing our energy program. RJD developed SABER to provide NAVFAC Northwest data to develop future energy and water conservation projects in the absence of the Navy's DUERS technology. RJD provides monthly reports to the Navy with recommended projects with the potential incentives to be achieved. There are currently no other substitute software products that is readily available to provide the information to NAVFAC Northwest. There is no other power marketing agent that provides earned incentives to the Navy for energy projects at NBK Bangor.

REASON THAT SUGGESTED SOURCE IS THE ONLY SOURCE WHICH CAN PROVIDE THE SUPPLIES OR SERVICES

(WHEN THE CUSTOMER DESCRIBES AN ITEM WITH A PURCHASE DESCRIPTION WHICH LIMITS THE AVAILABILITY TO ONE SOURCE, THE JUSTIFICATION MUST EXPLAIN WHY THE ITEM IS THE ONLY ONE THAT WILL MEET THE GOVERNMENT'S REQUIREMENT. STATEMENTS SUCH AS "ONLY KNOWN SOURCE" OR "ONLY SOURCE WHICH CAN MEET THE REQUIRED DELIVERY DATE" ARE INADEQUATE TO SUPPORT A SOLE SOURCE PURCHASE.)

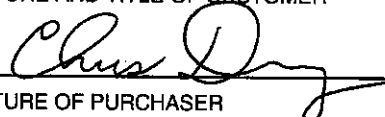

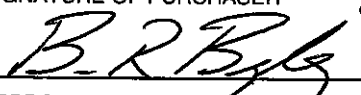

BPA is a Federal Power Marketing Agency, as defined in FAR 41.101, which provides earned incentives/rebates to NAVFAC Northwest. NAVFAC Northwest entered into an UESC with BPA under the authority of 10 U.S.C. 2913, *Energy Savings Contracts and Activities*, in 2008, which is to design and implement cost-effective demand and conservation incentive programs, including energy management services (10 USC 2913(d)(1)). BPA is a local utility provider who provides energy incentive and rebate funds to the Navy for each kilowatt hour savings achieved through energy conservation. BPA provides ETS services via a subcontract to RJD Technologies, Incorporated (RJD). RJD was competitively awarded a 5-year master agreement with BPA to provide ETS services to NAVFAC Northwest.

EXPLAIN WHY AN ADEQUATE PURCHASE DESCRIPTION OR OTHER INFORMATION SUITABLE TO SOLICIT BY FULL AND OPEN COMPETITION HAS NOT BEEN DEVELOPED OR ARE NOT AVAILABLE.

NAVFAC Northwest Public Works is responsible for market research and identifying potential sources for replacement technology. They will continue to evaluate other technologies and avenues to provide ETS services until the Navy's systems are functional.

PROVIDE A STATEMENT OF ACTIONS, IF ANY, THE GOVERNMENT MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS TO COMPETITION BEFORE FUTURE ACQUISITIONS ARE REQUIRED

Actions in support of the energy program for which there is an appropriation available, meaning it is not financed by the utility company, or the utility company does not provide an incentive or rebate, will be solicited and awarded in accordance with competitive procedures outlined in the Federal Acquisition Regulation.
